Galaxy Tab A9 | Tab A9+ Series

Versatile, Unique. Just for you.

Galaxy Tab A9 | Tab A9+

The new Galaxy Tab A9 Series manifests Galaxy's unique design identity.

With the new Galaxy Tab A9 Series, this versatile series is perfect for your everyday essentials. Find the perfect balance with this tablet by using it to continuously work on the go, at home for your entertainment or even online learning for your little one.

Your exceptional Performance

Feel the power of the processor on the Galaxy Tab A9 Series. The Galaxy Tab A9+ has a **Snapdragon 695¹ 5G²** chipset. Whether you are working on large files at work or relaxing at home playing a video game, rest assured your Galaxy Tab A9 Series allows you to accomplish more.

Be more productive using a **Multi-active window³**. Multi window supports top/bottom and left/right split Multi-Active Window to enhance the multi-tasking experience with limited apps. It allows you to run up to three apps at the same time and gives you the options: Split-screen view and Pop-up view.

Perform like you would on a computer using **Samsung DeX**. Multitask between devices like a boss. Connect your Galaxy to your monitor or TV to bring it to life on the big screen. And now, unlock your phone's possibilities on PC through Samsung DeX.

With the new **Screen Recorder** feature on your tablet, your little ones can replay their online learning session and review their notes on the screen.

Your Privacy and Your Family

We take privacy very seriously. All Samsung Galaxy devices are protected by **Samsung Knox** - a defense-grade⁴, multi-layered security platform that detects any tampering. Monitor your security status with the new Privacy Dashboard. Consolidated into a single settings menu, the **Privacy Dashboard** lets you view, set, and adjust all your app permissions, controls, and data-sharing opt-in features in one easy-to-use hub. Tap into the dashboard to see (and stop) apps that might be accessing more data than necessary.

Monitor and control your children's digital activities with Samsung Kids. Access settings and create child profiles within the tablet, set playtime and monitor their usage.

Your Ecosystem

The Galaxy Connected experience lets you be in the front seat of all your devices. Create a seamless transition across all your Galaxy devices. Never skip a beat in what you've been doing even when you switch devices. Pick up from where you left off from your Galaxy Tab A9 on your Samsung Galaxy Smartphone without having to worry about restarting or spending time transferring documents from one device to another.

With **Quickshare⁵**, the inbuilt feature, it allows you to even share photos, videos and files without having to pair devices. Use **Smart View** during your presentations by effortlessly mirroring your ideas onto a Smart TV.

1. Snapdragon is a product of Qualcomm Technologies, Inc. and/or its subsidiaries. Snapdragon is a trademark or registered trademark of Qualcomm Incorporated.

2. 5G connectivity supported on Galaxy Tab A9+ only. Requires optimal 5G connection. 5G services are only supported in 5G network enabled locations. Actual speed may vary depending on country, carrier and user environment.

3. Up to three apps can be displayed simultaneously on Galaxy Tab A9+. Certain applications may not support multi-tasking. Image simulated for illustrative purposes. Actual UI may be different.

4. Samsung Knox has successfully met the rigorous security requirements set by governments and major enterprises around the world, providing business users with a robust mobile security solution. <https://www.samsungknox.com/en/knox-platform/knox-certifications>

5. All functions are supported from One UI 5.1. Availability of One UI 5.1 may vary depending on device, country, region and carrier. Each device needs to have One UI 5.1, have Bluetooth turned on and be connected to the same Samsung account. Continue app on other devices is only compatible with Samsung Internet and Samsung Notes. For this feature to work, the two devices you are going to use must be signed in to the same Samsung account and connected to the same Wi-Fi network, with Bluetooth and Continue on other devices feature enabled on both devices. Image simulated for illustrative purposes. Actual UI may be different.

6. Screen measured diagonally as a full rectangle without accounting for the rounded corners.

7. User memory is less than the total memory due to storage of the operating system and software used to operate the device features. Actual user memory will vary depending on the operator and may change after software upgrades are performed.

8. Book Cover Keyboard will be launched in Q1 '24 and sold separately
